

KEEP ON TRACK CHART

This chart will help you to determine a child's current age and the required vaccinations for child care/preschool attendance. It was suggested by child care providers who needed a tool to help them determine which immunizations are required at which age.

To use the *Keep On Track* chart:

1. Find the individual child's month and year of birth in the first column on the left side of the chart entitled "Ages"
2. Follow the line straight across. The dates indicate the month and year the child reaches the age interval required for the next immunizations.
3. The child is required to have the immunization listed at the top of the column preceding his or her age interval.

For example, if a child was born January 2002:

1/02 - Birth Date	
4/02 - 3 months	Required to have immunizations listed at top of column II (1 DTP, 1 Polio, 1 Hib and 1 Hep B)
6/02 - 5 months old	Required to have immunizations listed at top of column III (2 DTP, 2 Polio, 2 Hib and 2 Hep B)
8/02 - 7 months old	Required to have immunizations listed at top of column IV (3 DTP, 2 Polio, 2 Hib and 2 Hep B)
5/03 - 16 months old	Required to have immunizations listed at top of column V (3 DTP, 2 Polio, 1 MMR, 2 Hep B and Hib (b))
8/03 - 19 month old	Required to have immunizations listed at top of column VI (4 DTP, 3 Polio, 1 MMR, 3 Hep B and Hib (b))
1/08 - 7 years of age (or Kindergarten entry)	Required to have immunizations listed at top of column VII (5DTP (c) 4 Polio (d) 1 MMR, 3 Hep B)

Footnotes referred to are at the bottom of Keep On Track Chart

The required immunizations referenced in this chart include:

DTP	=	Diphtheria - Tetanus and Pertussis
Polio	=	Polio
Hib	=	Haemophilus Influenzae b Conjugate
MMR	=	Measles, Mumps, Rubella
Hep B	=	Hepatitis B

KEEP ON TRACK CHART

CHART TO HELP YOU DETERMINE REQUIRED VACCINATIONS BY AGE FOR CHILD CARE/PRESCHOOL ATTENDANCE

1/2006	4/2006	6/2006	8/2006	5/2007	8/2007	1/2013

- (a) MMR must be received on or after the first birthday.
- (b) One dose must be received on or after the first birthday if it is 3rd or 4th dose; 2 doses must be received if both are received between 12-15 months; One dose if received on or after 15 months if it is the only dose. Not required after 5th birthday.
- (c) If 4th dose of DTP is received before the 4th birthday, a fifth dose is required by the 7th birthday or school entry
- (d) If 3rd dose of Polio is received before the 4th birthday, a 4th dose is required by the 7th birthday or school entry.
- (e) Hep B dose #3 is not to be given less than 4 months after dose #1 and after 24 weeks of age.
- (f) 2nd MMR or 2 (measles containing vaccine) required for K entry
- (g) **NEW** – The General Recommendations on Immunizations :revised 2/8/02” read as follows: “ACIP (Advisory Committee on Immunization Practices_ recommends that vaccine doses given ≤ days before the minimum interval or age be counted as valid.” Washington State Immunization Program is using the 4-day “grace period” ONLY for the purpose of minimum requirements, assessment of records and record review.
